

GT-R®

2023

The 565-hp non-conformist

It is, quite simply, unlike any other supercar. It rewrites the laws of aerodynamics and makes the air your ally. ATTESA E-TS® All-Wheel Drive redefines ultimate performance to include all four seasons. And it proves you can thrill to supercar performance and still have four seats, a handcrafted interior, even a trunk. The 2023 Nissan GT-R.® Convention never had a chance.

Mastery at every touchpoint

The GT-R's interior is a masterful blend of premium materials, from hand-stitching in the cabin to a dashboard pad created from a single, hand-selected Nappa leather hide.¹ Subtle etching on the aluminum bezels enhances their feel.

- Carbon-fiber interior accents
- Hand-stitched leather-appointed interior trims¹
- Machined aluminum interior accents

Nissan GT-R® Premium shown in Red Amber Semi-aniline Leather.³

A supercar with a rear seat

Music to anyone's ears, the dual woofers between the rear seats were developed especially for the GT-R® as part of the 11-speaker Bose audio system.

A sharper focus on driving

The Nissan GT-R is a master of letting you decide what information you need and serves it up in a clear, concise manner. From a choice of customizable performance screens to an intuitive Display Commander to control your media, you're in charge.²

- 5 customizable performance screens²
- Display Commander media controller
- Steering wheel-mounted paddle shifters

Massive power

The Nissan GT-R® is powered by a twin-turbocharged 3.8L V6 that produces a prodigious 565 hp and an equally immense 467 lb-ft of torque.⁴ For higher horsepower and enhanced response, each side of the VR38 features its own turbocharger, intercooler, and catalyst. Inside, innovative plasma-sprayed bores are used in each cylinder instead of traditional cast-iron liners to reduce friction and weight, while maximizing horsepower and increasing fuel efficiency.⁵

565 horsepower⁴

Aerodynamic alchemy

Rather than being confined by the demands of aerodynamics, the Nissan GT-R sculpts the air to its needs — becoming a force of nature, as much as a force to be reckoned with. Every aerodynamic detail was considered. A 1% energy loss around the C-pillar was enough for the GT-R's fanatical engineers to redesign the pillar to create a cleaner design. What you can't see is equally impressive. A flat underbody is used to create downforce, pulling the Nissan GT-R to the road, as well as helping cool key components.

.26 Cd

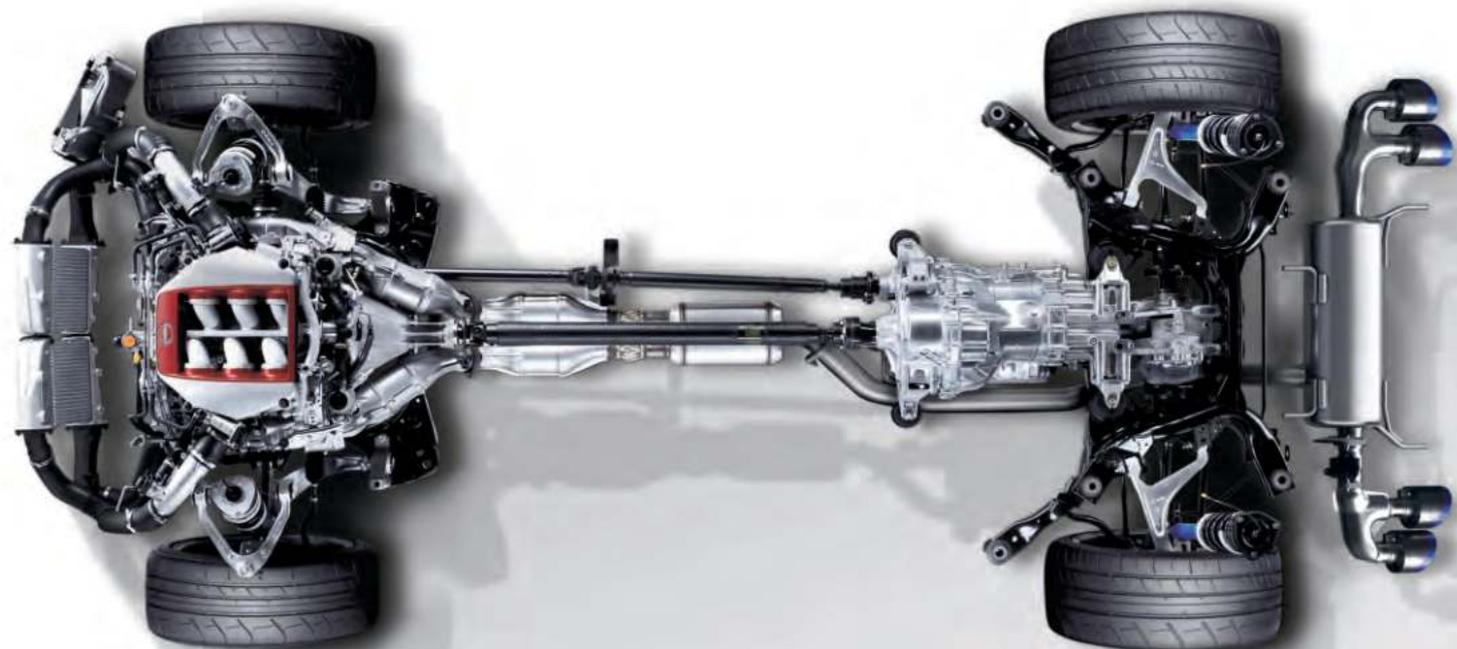

Handcrafted performance

Each GT-R engine is assembled by a single craftsman — called "Takumi" — renowned for their dedication and mastery. And with only five Takumi in the world entrusted with the honor, the plaque on the engine bearing their name has true significance. As one of the Takumi says, "We put our souls into each engine, hoping to deliver that excitement to customers."

Premium Midship platform

GT-R® employs a unique Premium Midship platform that moves the engine farther back in the chassis, reducing weight over the nose for responsive handling. Enhancing the design, the GT-R separates the transmission from the engine, and mounts it with the transfer case in the rear of the vehicle, creating an independent rear transaxle. By putting greater weight over the rear axle, traction and braking are improved. A visionary design in the pursuit of ultimate handling.

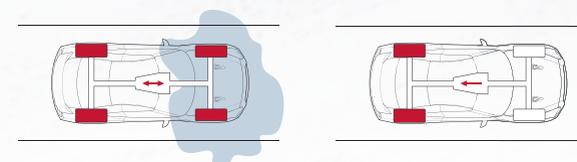

6-speed dual-clutch transmission

Rapid shifts on demand. Inside the Nissan GT-R's 6-speed dual-clutch transmission, there are separate clutches for the odd (1st, 3rd, 5th) and even (2nd, 4th, 6th) gears. When the car is in an odd-numbered gear, the adjacent even-numbered gear is "pre-selected" — ready to make the shift immediately.

ATTESA E-TS® All-Wheel Drive

Instead of the traditional 50/50 torque split between front and rear axles, the Nissan GT-R's electronically controlled All-Wheel Drive system can send up to 50% of torque to the front wheels as needed or provide nearly 100% of available torque to the rear wheels. This provides the steering feel and response of a Rear-Wheel Drive vehicle — the preferred choice of racecar drivers and serious enthusiasts — while still giving the added confidence that only All-Wheel Drive can offer.

NISSAN GT-R® NISMO®

Beyond ultimate

Ultimate Nissan vehicle, ultimate GT-R, ultimate supercar. Combining the amazing performance of the GT-R and the passionate engineering of the legendary racing arm of Nissan, you have the 2023 Nissan GT-R NISMO, a bold step beyond ultimate.

Under the hood, 600 horsepower is delivered by turbos from our GT3 racing program for incredible response across the rpm range.⁴

On the outside, carbon-fiber on the roof, hood, and fenders reduce weight and bring the center of gravity lower, closer to the center, to enhance stability and provide more responsive handling.^{1,6} Vents on the front fenders increase aerodynamic downforce for sharper turn-in.

Connecting you to the road is a competition-bred suspension working through unique 20" NISMO wheels and special-compound tires to take handling to the next level.

Inside is as beautiful as it is focused, with Recaro® seats, an Alcantara®-wrapped steering wheel with red leather stripe at 12 o'clock, and signature NISMO red throughout the cabin, including the seatbacks, tachometer face, shift lever, and door handle pulls.

481 lb-ft of torque⁴

NISMO high-capacity GT3 turbochargers

NISMO unique 9-spoke wheels

NISMO carbon-fiber body components⁶

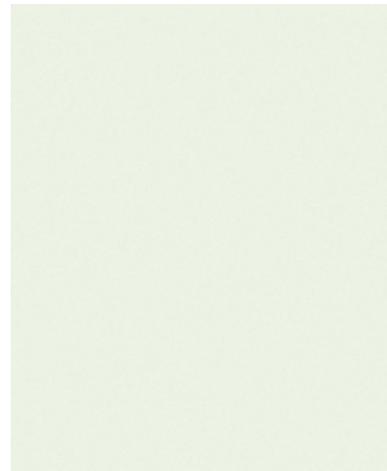

600_{hp⁴}

nismo

Incredible power requires incredible braking. The Nissan Brembo® Carbon Ceramic Braking System brings massive stopping power and enhanced fade resistance.

GENUINE NISSAN ACCESSORIES

Because you're not driving a car, you're driving a legend

Every Genuine Nissan Accessory is custom-fit, custom-designed, and durability-tested. Each one is backed by Nissan's 3-year/36,000-mile (whichever occurs first) limited warranty (if installed by dealer at the time of new vehicle purchase) and can be financed when installed by dealer at time of new vehicle purchase.¹²

For more information and to shop online for GT-R® Genuine Nissan Accessories, go to bit.ly/23GTR-Accys

CHOOSE YOUR ACCESSORIES

When you're driving a legend, you deserve to show your own personal sense of style – from subtle touches to special items that will wow your envious passengers.

A. Premium Sport Floor Mats w/ Carbon Fiber Inserts (2-piece set)

The ultimate mat for the ultimate supercar.

B. GT-R Pullover

Make a style statement as bold as your GT-R. To shop online for GT-R merchandise, go to bit.ly/Nissan-GTR-Collection.

C. Standard Tool Kit

This 7-piece kit includes a flathead screwdriver, Phillips screwdriver, pliers, two box-end wrenches, a flashlight, and a pair of gloves – all in a stylish case.

D. Chrome Jack w/ GT-R Logo

Exquisitely detailed, it will give you a lift every time you look at it.

E. Carpeted Floor Mats (2-piece set)

Protect your legend with style and comfort.

F. Jack Rod

Works with jack. Helps give your GT-R a lift.

G. Emergency Road Kit

Ready for life's little uncertainties.

H. Wheel Locks

Keep your wheels where you want them.

Additional Accessories:

- USB Charging Cable Set¹³
- Seat Belt Extender

Nissan Intelligent Mobility moves you one step ahead. In cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future – moving through life with greater confidence, excitement and connection to the world around you.

¹Available feature. ²Information displayed is dependent on how vehicle is equipped. Driving is serious business and requires your full attention. If you have to use the feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. ³Leather appointments. ⁴Premium engine horsepower and torque ratings: 565 hp and 467 lb-ft of torque; NISMO® engine horsepower and torque ratings: 600 hp and 481 lb-ft of torque. ⁵Fuel economy based on targeted 2023 EPA Fuel Economy Estimates for 2023 GT-R.® EPA data not available at time of publication. Targeted 2023 fuel economy 16 City MPG / 22 Highway MPG / 18 Combined MPG. MPG estimate based on Nissan internal testing results, subject to EPA confirmation. Actual mileage may vary with driving conditions. Use for comparison only. ⁶Dry carbon-fiber requires specific maintenance. Please see your Owner's Manual for details. ⁷Extra cost option. ⁸Always use appropriate tires for weather conditions. See Owner's Manual for details. Failure to use appropriate tires could cause an accident resulting in serious injury or death. ⁹Vehicle Dynamic Control cannot prevent collisions due to abrupt steering, carelessness, or dangerous driving techniques. It should remain on when driving, except when freeing the vehicle from mud or snow. See Owner's Manual for safety information. ¹⁰Use feature only when safe and legal. Compatible device and service required. Subject to third party service availability. For more information see [NissanUSA.com/connect/legal](https://www.nissanusa.com/connect/legal). ¹¹Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. ¹²For complete information concerning warranty coverage, conditions, limitations, and exclusions, see your Nissan dealer and [parts.NissanUSA.com](https://www.nissanusa.com) for warranty details. ¹³Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. ¹⁴Rear View Monitor may not detect every object and does not eliminate blind spots or warn of moving objects. See Owner's Manual for safety information. ¹⁵Sonar System may not detect every object. Driver should always check surroundings before driving. See Owner's Manual for safety information. ¹⁶Driving is serious business and requires your full attention. Do not operate any devices connected to the power outlets while driving. ¹⁷Use Hands Free Text Messaging when parked in a safe location. If you must use while driving, monitor traffic conditions and keep both hands on the steering wheel to prevent collisions. Compatible device required. Message and data rates may apply. ¹⁸Air bags are only a supplemental restraint system. Always wear your seat belt. Rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See Owner's Manual for safety information. ¹⁹Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. See Owner's Manual for safety information. ²⁰Cargo and load capacity limited by weight and distribution. Always secure cargo. ²¹Roadside assistance coverage period varies by model-year model. For complete information concerning warranty coverage, conditions and exclusions, see your Nissan dealer and read the warranty information booklet for the model-year model.
